

GRAPHICAL ABSTRACT

Efficacy of Super Oxidized Solution Versus Povidone Iodine in
the Management of Diabetic Foot Ulcers

AUTHORS

M. A. Kamal, W. Y. Khan, S. Arooj, M. Y. Khan, W. Batool, S. Iqbal

Background

Diabetic foot ulcer

- Super oxidized solution
- Povidone iodine

Compare efficacy
in the management

Method

Randomized
controlled trial,
 $n = 110$

Results

Randomized
controlled trial
 $n = 110$

Wound healing rate

85,5%

38,2%

Mean healing time

3,71 weeks

5,20 weeks

Infection resolution

83,6%

41,8%

Conclusion

Super oxidized solution
more effective than
